

God's-Eye View of You!

A Lecture by Fujiko Signs, CSB

Member of Christian Science Board of Lectureship

Saturday, April 8, 1:30 PM

Jungman Library

5830 Westheimer Rd

Houston, TX 77057

www.DoesPrayerHeal.com

In this talk, Fujiko will share several accounts of spiritual healing, including her own freedom from a heart condition and an abscessed tooth, her daughter's healing of a painful earache, a friend's complete restoration from Hepatitis C, and the friend's son's rapid and permanent release from pancreatic cancer.

Today Fujiko is a student, practitioner, teacher, and lecturer of Christian Science. She studies the relationships between prayer and healing, consciousness and reality, spirituality and well-being. Her job — and her joy — is to show others how we can all depend upon God to free us from any inharmonious condition, whether it be lack and limitation, fear and doubt, pain and other bodily suffering, or stress and depression.
